CENTRAL INTELLIGENCE AGENCY
WASHINGTON 25, D. C.

22 August 1957

MEMORANDUM FOR: TCO, Department of the Air Force

ATTENTION: Colonel James H. Macie, Jr.

SUBJECT: Requirement for Reports

REFERENCE: TCO #459/56 to TCO, Air Force; from TCO/OCR,
HRAUTOMAT; dated 12 December 1956; Subject:
Request for Additional Material

1. In reference, HRAUTOMAT requested that six (6) copies of all Air Force reports prepared from TALENT materials. Since the Strategic Air Command channels its TALENT production through your office, it was felt that referenced request included TALENT materials prepared by SAC. Mr. Lundahl has advised me that to date HRAUTOMAT has received many SAC reports, but only two (2) copies. Request that HRAUTOMAT be provided with four (4) additional copies of all SAC reports and materials produced to date and that future distribution be increased to six (6).

2. As you can well imagine, HRAUTOMAT has a continuing need for the most recent charts produced by SAC. Since distribution to CIA through normal acquisition channels is rather routine and to avoid unnecessary complication of the existing distribution pattern, request that two (2) copies of all SAC Charts produced to date and in the future be made available through the medium of the TALENT Control System.

3. Your considered attention to and expeditious fulfillment of this request will be greatly appreciated.
